

## Academic Foundation Programme (AUoA) 2019 Application Supplementary Information

Academic Unit of Application	Question 1	Question 2	Question 3	Question 4	Question 5	Question 6
<b>East Anglia: Cambridge</b>	Please highlight how the programme will contribute to your clinical and research career plans.	What is your single best research achievement and why?	Will Artificial Intelligence (AI) be good or bad for medicine?	Please describe one example of an achievement that is relevant to the application that has occurred outside of your medical research and clinical training.		
<b>East Anglia: Norfolk &amp; Norwich</b>	Please describe your research and teaching experience.	Please describe a research project that you would like to undertake.	Please describe your career plans.			
<b>Essex, Bedfordshire &amp; Hertfordshire (EBH)</b>	Across EBH we are able to offer separate academic programmes focussed on education, simulation strategy or management. Please explain priority and your rationale for your choice of programmes.	Please describe your previous relevant teaching experience and achievements as a teacher.	Please describe your experience in simulation training and the value of development of simulation training for doctors.	Please describe your experience and achievements as a leader and/or manager.	Please give details of your special study modules or elective attachment (or proposal) and their significance to the development of your academic career.	Give one example of a non-academic achievement and its significance to your application for an Academic Foundation Programme.

<b>East Midlands</b>	Please explain why you wish to apply for an Academic Foundation post.					
<b>London</b>	Not Applicable	Not Applicable	Not Applicable	Not Applicable	Not Applicable	Not Applicable
<b>Northern</b>	Please identify your educational reasons for applying for the Academic Foundation Programme in the Northern Foundation School?	We recognise that applicants will have had varying levels of research and teaching experience. Please give one example in your medical student career to date of a research project or teaching experience and its significance to your application for an academic foundation Programme.	Academic medicine requires an individual to work successfully in a team. Describe a time that is relevant to your foundation training when you have worked as a successful member of a team and identify your role and contribution to this success.	Give two examples of your non-academic achievements and their significance to your application for an Academic Foundation Programme.	Give one example in which you have demonstrated your leadership abilities. The example should be from your undergraduate experience (or postgraduate experience if relevant) and should identify your specific role and contribution as a leader and its relevance to academic activities.	
<b>Northern Ireland</b>	How would training in the Northern Ireland Academic Foundation Programme contribute to your overall career plans?
