

****Updates made to Statutory and Mandatory e-learning programme****

Health Education England e-Learning for Healthcare (HEE e-LfH) has re-designed the Statutory and Mandatory Training e-learning sessions and eAssessments to be combined into a single package. This update will enable users to easily access both the knowledge content and e-Assessment in one session

As part of this update to the Statutory and Mandatory Training programme, we have also updated the Data Security Awareness Level 1 session and eAssessment to include General Data Protection Regulations (GDPR) and social care updates.

If you are part way through completing these programmes, please be aware that the previous courses will remain accessible within an archive folder until 31 March 2019; enabling users and local administrators to access historic certificates and report on learning history.

For those organisations currently using our AICC functionality to launch the sessions on their own Learning Management System, please note that the existing separate session links will remain active. New links to the combined sessions are now available.

For more information about the programme which covers a range of topics as well as Data Security Awareness including training on Fire Safety, Infection Prevention and Control and Moving and Handling please visit: <https://www.e-lfh.org.uk/programmes/statutory-and-mandatory-training/>.

If you have any questions about the changes to this programme, please contact [HEE e-LfH](#).
