

UKFPO Bulletin  
Wednesday 22<sup>nd</sup> May 2019

**\*\*UKFPO Update\*\***

- The UKFP 2020 Eligibility Applicant Guidance has been published and can be found [here](#).
- Follow us on [Twitter](#) and [Facebook](#) for regular updates and news

**\*\*Horus ePortfolio Update\*\***

- Pre-ARCP checks: Foundation doctors should refer to [UKFPO](#) and local guidance and to the [ARCP summary of evidence report](#) to ensure they are on track to complete all the mandatory requirements for their stage of training.
  - Foundation doctors can find a [list of local contacts](#) to help with any queries on their Horus “Help” page.
- Educational supervisors should, for each foundation doctor they supervise, before ARCP
  - complete their **End of Year Report**
  - ensure that any ‘unresolved’ [concerns](#) are, where appropriate, [resolved or deferred](#).
- 2019-21 F1-F2 cohort: Horus will import the basic personal and rotation details for all foundation doctors recruited through Oriel in **June 2019**. Foundation school teams have been sent details.
  - Trust admin teams do not need to manually create accounts for any foundation doctors recruited through Oriel.

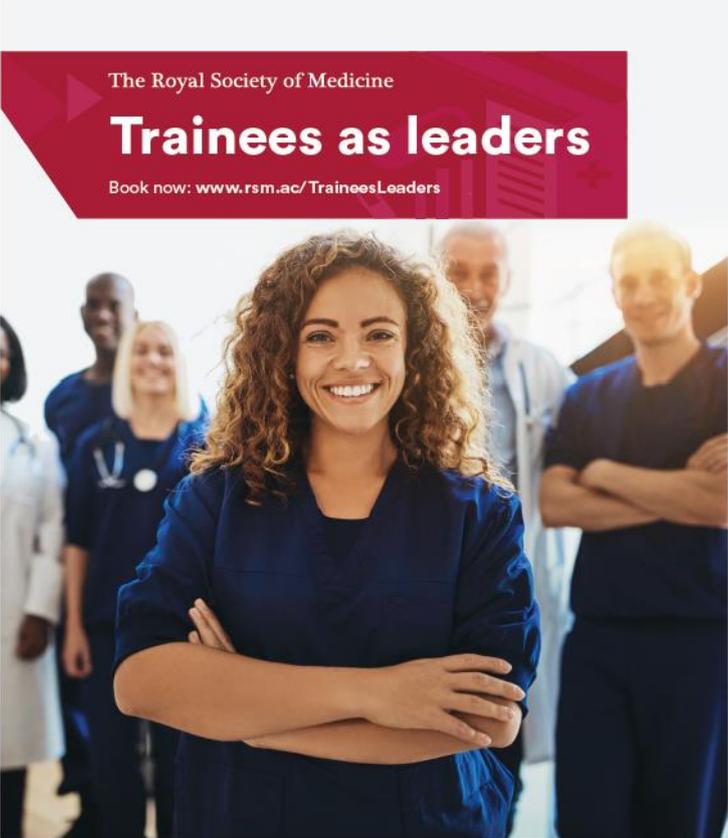

**\*\*Core Surgical Training Interview Course\*\***

“We are delighted to announce that the 2nd Annual Core Surgical Training Interview Course at King’s College London are officially accepting doctors for this November’s course.

Last year’s course proved to be highly successful with most candidates receiving one of their top 3 jobs, including themed and London jobs. We are delighted to welcome these doctors back to help provide useful guidance for this year’s candidates. The format will remain standard, with a day of lectures and mock interviews with high faculty numbers to create a realistic interview experience and give detailed feedback.

Further information and advice will be given to those interested in joining us for this course. We accept doctors from any background, encouraging F1s and F2s, as well as anyone hoping to apply for Core Surgical Training.

For further information please contact the course chairman [akahluwalia@doctors.org.uk](mailto:akahluwalia@doctors.org.uk).”

**\*\*UK Aspiring Paediatrician's Society (UKAPS)\*\***

UKAPS is an organisation affiliated to the Royal College of Paediatrics and Child Health (RCPCH) to help to aid the sharing of ideas and opportunities with keen future paediatricians across the UK – amongst both foundation doctors and medical students. Our vision is to help foundation doctors find opportunities for taster weeks, courses, networking, exam-preparation, career planning, and more. We organise an annual autumn conference, regular newsletter, and are developing a number of national, RCPCH endorsed prize opportunities.

For more information, please visit our website and sign up to our mailing list!

<https://ukaps.home.blog/>

We hope to hear from you soon!

Jess Laidlaw, Roshni Mansfield, Evangelia Myttarakis, and Charlotte King  
(UKAPS FY reps and UKAPS president 2018-19)

## **\*\*Royal College of Emergency Medicine Careers Day\*\***

This is a day for students, foundation doctors and anyone else with an interest in a Career in Emergency Medicine, providing information and inspiration using factual and honest talks across a range of topics including training, exams, day in the life, work-life balance and sub-specialty training.

Interactive workshops in the afternoon allow participants to get involved in scenarios, and a panel discussion ensures all of your questions about Emergency Medicine are answered!

**Date:** 29 May 2019

**Venue:** RCEM Octavia House, London

Registration is now open. To book your place please [click here](#).

## **\*\*Career Planning e-learning programme for core doctors \*\***

Health Education England e-Learning for Healthcare has developed three bespoke e-learning courses to help core medicine, surgery and psychiatry doctors make informed career choices and effective applications for future career steps. These courses are the latest in a number of bespoke career planning courses developed for health professionals within the e-Learning for Healthcare career planning programme.

The courses will provide core medicine, surgery and psychiatry doctors with a deeper level of understanding of how to ensure future career planning is informed, realistic and robust. They are based around the following five sessions:

- Introduction which provides an overview to the course
- **S**elf-awareness which includes reflecting on values, work preferences, skills interests, personality and career stressors
- **C**areer exploration which includes consideration and research of career options available as well as developing effective networks
- **A**rriving at your decision which focuses on decision making types and methods as well as how to check the robustness of career decisions
- **N**ext Steps which offers advice, information and examples on CV development, job applications and preparing for interviews as well as effective action planning

For each session, learners can compile a distinctive, thorough personal portfolio of research and reflections contained in a downloadable workbook, which can be used to support job applications and interviews.

The e-learning resource is available on the e-LfH Hub, the Electronic Staff Record (ESR) and via AICC links.

For more information about the programme visit: <https://www.e-lfh.org.uk/programmes/career-planning-for-healthcare-professionals/>.

### **\*\*e-learning for Healthcare – May update\*\***

The Foundation e-learning programme has been developed by the Academy of Medical Royal Colleges in partnership with Health Education England e-Learning for Healthcare (HEE e-LfH) and is approved by UKFPO.

Do you need to complete parts of the curriculum on your e-portfolio which you do not cover in day-to-day practice? If so try some of our free e-learning mapped directly to the Foundation Professional Capabilities (Training Outcomes) in the 2016 Foundation Curriculum.

The e-LfH sessions in Foundation e-Learning Project - Professional Capability: 7 Works effectively as a team member; the e-learning sessions cover working in, and with, teams in different healthcare settings. You will discover how effective teamwork is a determining factor in patient safety and the value of good handover practice and referral. You will think about your role within a multidisciplinary team (MDT). Finally, you will consider team dynamics and how working within and across MDTs can deliver and improve patient services.

#### **Sessions:**

- Team Working and Patient Safety
- Good Handover Practice
- Effective Referrals to Other Clinical Teams
- Primary, Secondary Care Interface
- Ward and Therapy Services
- Ward and Social Services
- Team Dynamics
- Effective Team Working

You can sign in to the e-learning with your login supplied by e-LfH at the beginning of your foundation training: <https://www.e-lfh.org.uk/programmes/foundation-programme/>.

**\*\*British and Clinical Immunology\*\***

To increase awareness and interest in Allergy as a specialty; BSACI is offering 30 scholarships for late Foundation Year 1 and Foundation year 2 doctors/ Core Medical / Internal Medicine trainees to attend the BSACI Annual Conference in Harrogate 3-5th October 2019.

Information about the meeting and scholarships can be found at <https://bsacimeeting.org/>.in the Abstracts/Awards & Fellowships section

**Allergy: a young, evolving and dynamic specialty**

The increasing prevalence of allergy has created new career opportunities in this rapidly expanding and changing discipline.

The British Society for Allergy and Clinical Immunology (BSACI) is the UK's leading organisation for healthcare professionals caring for patients with Allergy.

**To increase awareness and interest in Allergy as a specialty; BSACI is offering 30 scholarships for Core Medical/Internal Medicine trainees to attend the 2019 BSACI Annual Conference**

**Details of the award: -**

Open to all late FY1 and FY2 doctors, Core Medical and Internal Medicine trainees with an interest in or considering a career in Allergy.

Up to £550 to cover conference fees, hotel accommodation and travel expenses.

The application involves supplying a 300-word statement detailing why you would benefit from this scholarship with a supporting letter from your current supervisor.

Abstract submission for the conference is encouraged, but is not a requirement.

**Deadline for submissions is Monday 29th July 2019**

**To find out more and to apply, please visit our website**

<https://bsacimeeting.org/>
