This number represents the number of students who applied from the medical school that is linked to the foundation school and not the number who preferred the foundation school as their first-choice allocation.*

Appendix 4 – Number of Withdrawals

The table below shows the number of withdrawals from the point of application up until the start of the Foundation Programme. Withdrawal percentages are derived based on the number of applicants.

Year	Number withdrawn	% of applicants who applied
FP 2013	609	7.42%
FP 2014	548	6.87%
FP 2015	596	7.07%
FP 2016	543	6.91%
FP 2017	517	6.68%
FP 2018	507	6.44%*

**The withdrawal rate reduced for the 2018 programme as sponsorship was arranged for applicants who were subject to Resident Labour Market Tests (RLMT) to apply for Tier 2 visas under the 'milkround' category due to revisions to the advertising schedule. In previous years, this cohort would have typically been withdrawn.*
