**\*\*Re-train as a GP\*\***

There's been a rise in the number of enquiries from doctors who are considering re-training as a GP - from other medical speciality trainees, consultants, trust and staff grade.

The next round of GP specialty training applications opens from 30 July – 15 August 2019 (February 2020 start).

Follow us on [Facebook](#) or find [case studies](#), [FAQs](#) and [career information](#) on the GP National Recruitment Office (GP NRO) website. **If it's appropriate, please forward this information to**

your medical education colleagues so that anyone interested in switching career and thinking about re-training as a GP can find relevant information.

### **\*\*June 2019 Foundation e-learning programme update\*\***

The Foundation e-learning programme has been developed by the Academy of Medical Royal Colleges in partnership with Health Education England e-Learning for Healthcare (HEE e-LfH) and is approved by UKFPO.

Do you need to complete parts of the curriculum on your e-portfolio which you do not cover in day-to-day practice? If so try some of our free e-learning mapped directly to the Foundation Professional Capabilities (Training Outcomes) in the 2016 Foundation Curriculum.

The e-LfH sessions in the Foundation e-Learning Programme –

#### **Professional capability: 9**

Recognises, assesses and initiates management of the acutely ill patient; describes how to assess and manage the treatment of the acutely unwell and recognise your level of competence as a Foundation doctor. The assessment and management of a patient's fluid status, the presentation and management of sepsis and arterial blood gas sampling and interpretation are discussed. Managing patients with a reduced level of consciousness or acute pain is covered, as well as how to deal with a patient who self-harms.

The e-LfH sessions in the Foundation e-Learning Programme –

#### **Professional capability: 10**

Recognises, Assesses and manages patients with long term conditions; describes the impact of long-term conditions and how to manage them both in the healthcare setting and after discharge.

#### **Sessions**

- Senior Advice: When to Stop for Help
- Assessment and Initial Management
- Re-evaluation and Monitoring
- Managing Low Urine Output
- NICE IV Fluid - Assessment
- NICE IV Fluid - Principles and Five Rs
- NICE IV Fluid - Properties
- NICE IV Fluid - More Complex Scenarios
- NICE IV Fluid - When It Goes Wrong
- Managing Sepsis
- Arterial Blood Gas Sampling and Interpretation
- Patient with a Reduced Level of Consciousness
- Pain Management
- Oxygen Therapy
- Self-harm Assessment
- Managing Self Harm
- Impact of Short-term and Long-Term Physical Problems on Daily Living

- Ward and Therapy Services
- Assessment of Ability to Self-care after Discharge
- Ward and Social Services
- Nutrition and Health
- Nutritional Assessment
- Options for Nutritional Care
- Family Dynamics Affecting Discharge
- Management of Long-term Disease in the Community.

To access the e-learning on the e-LfH Hub use your login supplied by e-LfH at the beginning of your foundation training: <https://www.e-lfh.org.uk/programmes/foundation-programme/>.

### **\*\*RCPATH Foundation Taster Event\*\***

We are excited to tell you we have places still available for the RCPATH Foundation Taster Event June 29<sup>th</sup>. This is a free event for attendees and we are really excited about the consultants and trainees participating in the day. If you could please forward to any appropriate networks that would be fantastic.

The newly launched RCPATH Foundation Taster Scheme is an exciting opportunity for foundation doctors to explore pathology and see what the career has to offer. It combines a clinical taster day in your region with an event to be held in our fantastic new RCPATH College building, sponsored by the BDIAP. The event will take place on Saturday 29<sup>th</sup> June at the Royal College of Pathologists new facilities at 6 Alie Street, London E1 8QT.

Come and meet consultants and trainees from each of the major specialties and talk to them about the work they do, what the training involves and the variety of opportunities that are available for trainees to pursue. You will receive advice about the application process and how to be successful at interview, as well as how to pursue academic and research opportunities in pathology. You will also be able to put the pathology specialties to the test: can they help you to diagnose what is wrong with the mystery unconscious patient in the park?! Also make the most of the chance to submit a pathology-related poster to give you another line on your application and a potential prize of £100 from the ACP. At the event you will be given support to organise your own clinical taster day in a specialty of interest to you. If you have been considering applying for specialist training in pathology and would like to know more about the different subspecialties of pathology, make sure you register for this event to explore the exciting opportunities that our specialty has to offer you!

Registrations for the RCPATH Foundation Taster Event are now open.

Further information including booking details for the event can be found at [Foundation Taster Event](#) and I have also attached the programme.

## **\*\*ACCS Careers Day\*\***

**Date:** 11 September 2019

**Venue:** RCEM, Octavia House, 54 Ayres Street, London SE1 1EU.

This event is for prospective applicants with an interest in the Acute Care Common Stem – join RCEM's ACCS Careers Day to find out more information about careers in emergency medicine, critical care, intensive care and anaesthesia and to receive guidance on applications for training in these specialties.

### **Event objectives:**

to understand the ACCS application process to learn about the ACCS programme from current trainees and consultants in these specialties to offer participants a chance to get an answer to specific questions to look at how to maximise your potential and polish your portfolio.

([https://www.rcem.ac.uk/RCEM/Event\\_Display.aspx?EventKey=SD190911&WebsiteKey=b3d6bb2a-abba-44ed-b758-467776a958cd](https://www.rcem.ac.uk/RCEM/Event_Display.aspx?EventKey=SD190911&WebsiteKey=b3d6bb2a-abba-44ed-b758-467776a958cd))

## **\*\*Core Surgical Training Interview Course\*\***

"We are delighted to announce that the 2nd Annual Core Surgical Training Interview Course at King's College London are officially accepting doctors for this November's course.

Last year's course proved to be highly successful with most candidates receiving one of their top 3 jobs, including themed and London jobs. We are delighted to welcome these doctors back to help provide useful guidance for this year's candidates. The format will remain standard, with a day of lectures and mock interviews with high faculty numbers to create a realistic interview experience and give detailed feedback.

Further information and advice will be given to those interested in joining us for this course. We accept doctors from any background, encouraging F1s and F2s, as well as anyone hoping to apply for Core Surgical Training.

For further information please contact the course chairman [akahluwalia@doctors.org.uk](mailto:akahluwalia@doctors.org.uk).

## **\*\*British and Clinical Immunology\*\***

To increase awareness and interest in Allergy as a specialty; BSACI is offering 30 scholarships for late Foundation Year 1 and Foundation year 2 doctors/ Core Medical / Internal Medicine trainees to attend the BSACI Annual Conference in Harrogate 3-5th October 2019.

Information about the meeting and scholarships can be found at <https://bsacimeeting.org/>.in the Abstracts/Awards & Fellowships section

The British Society for Allergy  
and Clinical Immunology

Annual Conference  
3 - 5 October 2019  
Harrogate Convention Centre UK

### **Allergy: a young, evolving and dynamic specialty**

The increasing prevalence of allergy has created new career opportunities in this rapidly expanding and changing discipline.

The British Society for Allergy and Clinical Immunology (BSACI) is the UK's leading organisation for healthcare professionals caring for patients with Allergy.

**To increase awareness and interest in Allergy as a specialty; BSACI is offering 30 scholarships for Core Medical/Internal Medicine trainees to attend the 2019 BSACI Annual Conference**

#### **Details of the award: -**

Open to all late FY1 and FY2 doctors, Core Medical and Internal Medicine trainees with an interest in or considering a career in Allergy.

Up to £550 to cover conference fees, hotel accommodation and travel expenses.

The application involves supplying a 300-word statement detailing why you would benefit from this scholarship with a supporting letter from your current supervisor.

Abstract submission for the conference is encouraged, but is not a requirement.

**Deadline for submissions is Monday 29th July 2019**

**To find out more and to apply, please visit our website**
